

Plans For Battlefield And Statue of
Peace To Be Erected.

FRIDAY, APRIL 10, 1908.

Undoubtedly the Mail is correct in imputing the construction of the eastern division as a Government owned road to the initiative of the Government. The contention of the Mail is that no eastern section should have been built at all. History declares that if it had been built under the auspices of the Mail's friends it would have been as a privately-owned enterprise. That it is built at all, and that it is built as the perpetual pos-

EMPHASIZE THE WEST.

Recent reports of the Belfast Evening Telegraph contain columns of correspondence from Canadian writers discussing the conditions which obtain in relation to the prospective immigrant. For the most part the conditions are fairly represented, but the reporters have failed to exclusively emphasize those which pertain to Ontario. The result has been that the readers in Belfast have been misled to believe that conditions in Ontario, or at least the conditions of Ontario, are likely to be taken as the conditions throughout Canada. For Ontario is a pretty small part of Canada and that the conditions which exist in that Province are not necessarily representative of conditions which obtain in the remainder of Canada which is west of Ontario. But to the man abroad who has made little study of our geography those facts are not apparent. He has seen such news items as letters are being sent.

This points the need of some kind of publicity campaign in the (domestic) press of the United Kingdom and other Provinces are by no means all of Canada, and that conditions which may exist there do not necessarily represent conditions which obtain elsewhere is emphasized by the immigration refusal. In the nine month period of 1907 the total arrival by ocean ports of immigrants to the United States was 2,000,000 to the Great Lakes, and only 52,000 came to the four Western Provinces. Ontario alone got as many of the new-comers as the other three provinces of Canada and British Columbia together. That

He then went up on the iron train to the bridge to attend the funeral opening of W. E. Lord, who had forwarded about a hundred of the Red Cross letters to the Red Cross student transportation being provided by the Red Cross.

A number of Red Cross students attending the funeral of the late W. E. Lord, died of influenza, which was prevalent on May 5th. It is expected that a male quartette and a number of other quartettes will enter.

Red Cross, April 24th.

NORTH BATTLEFORD.

Public School, April 24th.

On Monday evening, the 4th inst., the home of George and Mrs. E. E. Haddon, Battleford, had been given the marriage of Miss Maggie Thorne, daughter of Mr. and Mrs. Robert P. Thorne, one of North Battleford, to Mr. Miss H. Wall.

Battleford school staff, acted as judges, while Allen D. Pickett, principal of the public school, acted as the officiating minister. Rev. Mr. Little, pastor of the Methodist church, officiated at the marriage ceremony.

The bridegroom, Rev. Mr. Little, is a son of Mr. and Mrs. J. Johnson, of the town of Saskatoon, and Battle River.

Land and Development Company, Battleford, has been awarded a contract by the Government of Yukon Territory, to build a road from the Yukon coast to Verulam.

W. R. Thorne, the Lander, is

J. R. BOYLE, FAVORS CO-OPERATIVE PLANT

This He Claims Would Be Beneficial For Monopoly of Best Business in Alberta—Would Have Packing Plant Under Government Supervision—Address to Namsa Electors.

The establishment of Farmers' Co-Operative Packing plants in the provinces under government supervision as the most successful method of controlling the undesirable effect on the meat industry of having the trade all in the hands of a few men, was the plan advocated by J. R. Boyle, M.P., for Sturgeon, who addressed a meeting last evening at Namsa schoolhouse. Mr. Boyle discussed provincial affairs, outlining the work done by the Legislature at the last session, and the plans for future legislation, and was listened to with marked interest and attention.

The schoolhouse was packed to the doors by an interested audience. Harry Bell, of Namsa, acted as chairman of the evening.

In dealing with the meat trade in Alberta, Mr. Boyle said that the time had not yet come when the Government could take control of the meat industry in the province by one man was at his disposal.

Favored Denmark System.
He favored the adoption of the system in vogue in Denmark, where two-thirds of the export meat trade was in the hands of farmers' co-operative associations under government inspection and supervision.

He pointed out that in Denmark, and Danish bacon now commanded the highest price of any pork in the market. The Alberta creamery system, in a measure, a copy of the Danish dairy system, only that we have more government capital employed in the business. He believed that the question should be solved in the same way.

The speaker said he was in favor of the government making provision by statute for the establishment of Farmers' Co-Operative packing plants. There would be little difficulty met with in getting the farmers to subscribe sufficient in each institution to supply the whole capital required to carry on the business as the amount required would not be large. He suggested that the government should supply sufficient capital to erect and equip the packing plants. They could hold the plant in reverts for their investment, and donate surplus to carry the interest on the investment during the organization stage, so that the plant might start operation with no charges against the government.

He thought that the government should supply the necessary technical assistance and executive supervision on the plant and assist in the marketing of the product.

Government Investigation.
Mr. Boyle stated that he understood that the government were planning to combine the investigation of the meat business this year, and that an investigation had been made by the Legislature for this purpose. He said he would like to see some men appointed that these men were appointed to make these investigations into and to Denmark, and to see the system in operation there. It was necessary that this question should be solved in the near future, and would soon become intolerable that one man should continue to have a monopoly of the meat trade in the province.

Compensation Act Explained.
The next subject dealt with by the speaker for Sturgeon was the Women's Compensation Act passed at the last session. In dealing with this matter there were many who would he had regarded it. First, how it affected his own constituents, and second, its effect on the public at large. This act affected the farming population of the country, and it might eventually have the effect of increasing the price of meat from 10 to 20 per cent in order to allow the mine operators to insure their own employees. He thought, however, that this was preferable to the necessity of the province having to pay for the expense of the wives and families of miners injured in mining accidents. From the humanitarian standpoint also, this act was desirable, and he had a tendency to regard the number of accidents, and that protected the lives of the miners. The new system brought about by this act was a double check on mine operators that served to make them more careful of the lives of their employees. Not only did they have to pass government inspectors, but it was also in the interests of the insurance companies to see that the danger from mine accidents was reduced to the minimum.

Irrigation and Drainage.
Mr. Boyle then referred to the new Drainage Bill, which was the last session of parliament. He had been interested for this legislation for two years. Under the terms of the Atkinson Bill, the Dominion government had retained control of the irrigation system in the province. As the irrigation and drainage system would oppose in effect were introduced in that they both involved the diverting of water, the difficulty perceived by the government was to get a drainage act that would not conflict with irrigation measures. It was accordingly necessary to make arrangements with the Dominion government so that an act could be passed which would not be in conflict with the Dominion government's retained their irrigation powers, as most of the country which required irrigation lay in Southern Alberta. This part of the country drained into the Missouri river, and the drainage from which was drain-

ed toward and increased the border and were used by the people on both sides. The supply of water was limited, and it was necessary to have law arising as to the rights of the users to cut off the water supply. This was a national question, and more properly handled by the Dominion than the provinces. The Dominion then the provinces. Arrangements were now being completed between the governments of Ottawa and Washington, so that this disputed question amicably adjusted.

The new provincial drainage act provided for two good results to the province. It provided for the draining of swamp lands, and assisted in the work of making better roads. The land thus reclaimed was made to bear a portion of the cost. Provision was made for the better drainage of the province, with the right to appeal. From the number of applications now being received, it was evident that there was very little indication that the new drainage act was being taken advantage of by the people of the province. It would probably be necessary next year for the province to borrow money in order to carry out the provisions of the act. The government then was very indicative that the new drainage act was being taken advantage of by the people of the province. It would probably be necessary next year for the province to borrow money in order to carry out the provisions of the act. The government then was very indicative that the new drainage act was being taken advantage of by the people of the province.

Educational Matters.
Referring to educational matters, Mr. Boyle said that the government was interested in the question of the extension of the education of the children in the province. He pointed out that the government was interested in the question of the extension of the education of the children in the province. TO WAIT CONFERENCE WITH GRAIN GROWERS

Saskatchewan Legislature Refuses to Consider Motion to Secure Interim Elevator Until Conference With Farmers of Three Provinces is Held.

Regina, April 9.—At yesterday's sitting of the Saskatchewan Legislature, a motion made by Mr. Ellis, requesting the government to make provision for the security into the question of government ownership and the control of interior elevators for the farmers of the province, was defeated. In moving it, Mr. Ellis stated that the farmers of the province, who are in a position to pay the actual value of wheat, and the amount received by the farmers in Saskatchewan, would in three years be sufficient to buy the elevators in the province.

Mr. Langley appealed to Mr. Ellis to withdraw his motion, as he stated that the farmers of Saskatchewan would in three years be sufficient to buy the elevators in the province.

Grain Growers Association.
The Grain Growers Association of Saskatchewan, which is now in session at Regina, will wait until the government is ready to make provision for the security into the question of government ownership and the control of interior elevators for the farmers of the province.

serve the purpose of gun or mortar equally well, while because a single gun can deliver an almost continuous stream of projectiles, it will at least equal in the fire power of a whole battery of modern quick-firers.

A Drug on Market.
Montreal, April 9.—It is said that Canadian apples are now "a drug" on the Montreal fruit market, and the reason for the situation is placed on the farmers and packers in Western Canada, who, it is claimed, held up the prices last autumn to such an extent that the local dealers could not purchase, and in consequence the public turned their attention to the fruit from the States, especially oranges, of which there have been tremendous sales during the winter season.

No Women Suffrage.
Toronto, April 9.—The Legislature today voted against women suffrage, defeating the bill to give a vote in the provincial elections to widows and spinners owning property.

Labor Candidate in Quip.
Guelph, April 9.—Labor may place a candidate in the field for the provincial election. It is rumored that the Liberals may not oppose Mr. Downey's motion for the election of a representative of the High Guelph, M.P.

Black Voile Skirts.
Mr. Ellis said he also intended to move the Grain Growers' association, but he could not see his way to do so. Mr. Langley's motion was defeated. Mr. Langley then moved an amendment to the Grain Growers' association, which would be to express an opinion until the conference asked for last night.

Large contractors' outfit, comprising 12 teams, mules and horses, with harness, camp equipment and complete grading outfit.

Note and horses located at Harker Lake, six miles south of Kurat, Sask., on the Canadian Northern Railway. Grading outfit at Tonawood Falls, Sask. Bids will be received for all or part.

M. J. MCLEATHY, 232 St. James St., Montreal, Quebec. Apply also to: M. J. MCLEATHY, C. McLeathery & Co., Edmonton, Alberta Hotel, Edmonton.

The retail customer had absolutely demanded that the merchant mark his goods in plain figures, and sell them at one price—the same price to everybody. It's only during the last few years that this has become the custom with merchants. People demand honest treatment, and the one who gives it to them is the one who gets the business.

Long profits have given place to a larger volume of business. Going farther, the makers of the Foot-rite Shoe mark their shoes in plain figures, and the merchant must sell them at that price—no more.

Take the Foot-rite Shoe at \$4.50. Most stores would sell that shoe at \$5.50 in the whirl of the busy season, and then advertise it at "a bargain, \$4.45" in the dull months.

Day in and day out, every month in the year, the Foot-rite Shoe is sold at the plainly marked price. The \$5 shoe is \$5 now and always.

It's a shoe of 20 improvements—with more skill and genuine value in the Goodyear process than most makers can attain.

The "Foot-rite"
The Napoleon of Shoes.
E. J. HART & BROS., Agents, Edmonton.

Standard Time everywhere is ELGIN Time
In every time belt between New York and San Francisco—Eastern, Central, Western and Pacific—the Elgin Watch is the standard timekeeper.

SPORTING NEWS

THE PEOPLE'S SHIELD.

The competition rules for the People's Shield, the trophy emblem of the Canadian football championship of Canada.

1.—The entire control and management of the competition, 1936, shall be vested in the Committee.

2.—The competing teams must be composed of bona fide members of their respective clubs, and while the players of each team may be changed or individual players may be played for more than one team, a bona fide member is one who has been a registered member of his club not less than twenty (20) days previous to the match. No player shall have played less than two competition matches for his club.

3.—The games shall be governed by the laws of the F.F.A.

4.—No professional will be allowed to compete.

5.—The names of clubs entered for competition shall be placed by the Committee in a box to be drawn from at least ten days before the start of the final is to be played. The lots shall be drawn, and the competing players for each game selected by the Committee.

6.—In case of a draw, a replay shall be played. If the game remains drawn, after the extra half-hour, the referee will be required to determine.

7.—All questions of eligibility, qualifications of competitors, interpretation of the rules or laws, as well as all other matters in dispute, shall be referred to the Committee, whose decision shall be final.

8.—The proceeds of matches will be pooled and after paying the expenses of the travelling, grounds and other expenses of the matches, the balance to be divided among the teams competing in the respective travelling expenses.

9.—The Committee will have the power of choosing referees and line-men.

10.—In addition to the "People's Shield" trophy, the winners of the final game (finals permitting) will receive the "People's Shield" trophy.

SPOKANE'S FAST TEAM.

Spokane, April 9.—"You can tell the facts the fastest team Spokane ever had will represent the city in the Western league this year, and that we will be among the leaders. The other teams will have to play grand ball to keep up with our pace," says Billy Huston, captain of the Indians, according to the Spokane-Examiner. Huston claims that Lewiston has been cold and that the boys had little chance to show they could, but he says that they have been able to perform on the field has demonstrated to him that they possess the class necessary to winning.

"Setting along pretty well, and everybody is looking fine," continues Huston. "I like Marking, who is second, and that boy is a corner man. Northrup looks like a horn out of the gate. What the club needs is a shortstop, and Manager has his lines out for an old hand who will balance the line nicely. — If he should fail to land this man we have two youngsters who are sweet at the position. Starnes and Chandler, and one of them may be assigned to the position."

Including Bill Huston, Manager Quinn has twenty-four men on the roster. The training process will not be instituted until the team goes back to Spokane.

WANT LYON TO GO TO ENGLAND.

Glasgow, April 9.—Although George Lyon of Toronto, the Canadian golf champion, has returned to the U.S., he will not be able to take part in the Olympic golf in England owing to residence of business in Canada, it is possible that he may go after all.

Dr. Ruffin of McGill University, convener of the golf committee in connection with the Olympic sports, and member of the central board, announced that the committee was to be organized by Mr. Lyon to go to England.

"Mr. Lyon is the only Canadian in Canada, and we will not attempt to send him over in an effort to bring the Olympic golf championships to Canada," said Mr. Lyon states now. "There is no possibility of his making the necessary arrangements, but pressure will be brought to bear, and the chances are that Mr. Lyon will go."

"HACKS' IMPRESSIONS.

Chicago, April 9.—"Hack is of the conviction that Gitch was killed in some way when he first touched him," said one of his party tonight.

"He told us before starting that Gitch was the fellow who slipped they were. He felt that Gitch was weak, but wouldn't let it show. He worked well into the skin and that when he started breathing it worked out."

"He told us that from the moment he was in the ring he was up against it," to one phrase, and that inside of ten minutes his only idea was to get out of there."

SPORTING BRIEVES.

More were for the Pittsburgh club Edward Abbot, who, the second season of the Pirates, has dashed away from the training grounds, and is rushing to his home in Latrobe, Pa., where he has applied for a liquor license. He has been held for a week. The loss is over \$100,000.

Tom Phelan, the world's record holder in the "800-yd" between legs with out follow, arrived in New York from Ireland last night. He is 35 years old, weighs 235 lb, and is 5 ft 10 in. He has been featured at all of our recent fights, and is one of the standard events in the Gaelic championship programme. Phelan is a first performer with the Gaelic football. He is a good runner and has been marked during the coming season.

Holder of the great winter sports of Toronto, will miss "Sport" night's race fair when the Toronto club, the St. George's to leave the Toronto News. He will not take any more of a player, but he is a fine all-around capable of all well. "Sport" completes his career at the Ogea Regatta immediately, where he will start his professional. Everywhere, where

him all the success possible in his professional duties.

This season Jackie Moffin will have to show his real worth. The New York Giants of three years ago were by all odds the strongest team in the National League, with Mathewson, the greatest pitcher the game has ever known, as a leader. "Mattie" lost his effectiveness, and the Giants had their troubles. Moffin will either replace the leader or be taken out as a man who was made by a great ball team, the players having been trained before he got into line.

At the end of a ball game in Mobile, Ala., last Sunday between the New York National league team and the Negro Western league team, a sheriff seized various on the grounds for the purpose of collecting a fine. Bonds were provided and the New York team was allowed to continue the journey.

THE COMING MATCH.

Buckley and Trout, who are to fight in 15 rounds before Edmonstone's sporting fraternity next Monday, are training hard and will be in good shape when they shake hands in the ring. Buckley this morning went out for his usual run and covered five miles. When he came in he was as fresh as when he first started having trained a hair. He then got down to work with the mitts and for fast hands he was backed with his various sparring partners. Buckley has a stiff punch and will put any man away if he lands it. He is fast and works well on his feet. His style of boxing is established in Faced with punishment in order to land.

Trout, who is also the fast one, has a stiff punch and will put any man away if he lands it. He is fast and works well on his feet. His style of boxing is established in Faced with punishment in order to land.

Trout, who is also the fast one, has a stiff punch and will put any man away if he lands it. He is fast and works well on his feet. His style of boxing is established in Faced with punishment in order to land.

WILL PLACE LOBSTERS IN PACIFIC WATERS

Department of Marine and Fisheries Superintendent Removal of 1,800 Lobsters From Atlantic to Pacific.

Halifax, April 10.—An interesting experiment in fish culture was undertaken today when a shipment of 1,800 lobsters from the Atlantic waters were transported to the Pacific coast. The lobsters were taken from the Atlantic coast and placed in the waters of the Pacific coast. The experiment was undertaken by the Department of Marine and Fisheries, and the results will be observed in the future.

Meers, Fishelson and Cunningham, experts of the department, came here to prepare special rates for transportation in cold storage and, under conditions as nearly as possible like those of the natural life, until the lobsters are taken to select the best lobsters obtainable.

THE STORE THAT SELLS FOR LOWEST PRICES

Fashion Sheets

Mailed on Application Here.

RELIABLE MERCHANDISE

Agents for Butterick Patterns 10c. and 15c. None Higher.

It is easy enough for any firm to work up a reputation for cheapness by selling cheap goods, but it is a reputation we do not wish to have. It has always been our endeavor to sell only good goods—merchandise we could recommend to our customers—and to sell it at the lowest possible prices consistent with quality. This year our cash buying and the financial stringency in the world's markets has enabled us to secure even better values than usual, and the saving we effected is being passed on to our customers, with a still further reduction our rapidly growing business permits us to offer. We solicit your inspection of our splendid new Spring Stock; it is worth your while. No need to send east any longer. We can do just as well for you here, and you see what you are getting for your money. We invite your comparison of our prices.

Easter Ribbons

Special Dresden designs in a nice assortment of colors, and full six inches wide. Special price, per yard **35c.**

Children's Shoes

It is most important when selecting children's shoes to see that their growing feet are properly fitted. We make a specialty of children's shoes, and carrying a very large stock, we can assure your little one a perfect foot-fitting shoe, a shoe that will not cramp the tender muscles, that will be easy and comfortable right up to the day it is worn out.

Let our expert shoe men show you some of the new styles in sensible shoes for children.

Ladies' Shower-proof Coats

Showerproof coats, in fawn, grey and black, all new goods. We did not carry a single waterproof coat last year, which speaks well for our prices.
